Retro Refrigeration

precision

The Retro Refrigeration range has a modern professional refrigeration system on the inside, with energy-efficient and temperature control features. On the outside, a vintage retro styled unit that makes a striking focal point in any kitchen or bar.

The flexibility of the award winning Retro Refrigeration range means that, you can have both the convenience and design flare, offering customers a unique solution to your kitchen or bar area. The iconic large robust handles and hinges, really stand out as a key design element.

The high quality stainless steel exterior is durable and practical, providing customers with a robust product suitable for any commercial environment.

The Retro Refrigeration range is available in a variety of different metal finishes including: burnished, mirrored and brushed stainless steel to enhance any kitchen or bar design. For added flexibility, the Retro Refrigeration range, also has different door options, including: reeded and clear glass with coloured LED lighting, and wooden and metal door options to choose from.

When it comes to colour, the Retro Refrigeration range comes in a multitude of colour choices to suit any kitchen or bar layout: give us a RAL number and we will paint your Retro Refrigeration product to match.

The award-winning Retro Refrigeration range.
